IARR DAILY CREW REPORT

Knoxville #3

SELWAY COMPLEX – ID-NCF-000902

STATE: Idaho

Nez Perce Clearwater NF. Full Suppression management strategy. The ICP is located 11 miles south east of Elk City, ID. Type 1 Incident Management Team (Dueitt, IC) is also managing the Elk City and Red River Complexes. Active fire behavior reported. Historical structures are threatened. Area, road and trail closures in effect. Arkansas-AOC Crew C-2 is assigned to Branch III Baldy/Structure Protection Group. They will continue to assess structure protection planning for Mud Springs and Elk City Township. Continue fuel reduction around structures from Mud Springs into westside of Elk City. The North Carolina Crew C-2 is assigned to Branch II Red River/ Red River Group. They will be providing structure protection for the Red River Hot Springs road corridor. Assess and continue fuel reduction around structures by thinning and limbing of ladder fuels, removing cut debris around structures and setting up sprinkler systems where possible and needed from Red River Ranger District to Red River Hot Springs. Estimated containment 11/15.

C-1	US-PR	Teepee Mtn	850	A	0630	2000	N

MORALE OF CREWS:

Crews are working safely, spirits and moral are still high!

INJURIES:

NONE – No significant injuries reported.

MESSAGE: THERE IS NO OR SPORATIC CELL OR INTERNET SERVICE.

The major fuel type found on the fires is timber with dead and down component (grand fir, douglas fir, ponderosa pine and sub-alpine fir/lodgepole). There are also areas with slash from logging operations as well as young stands of timber and old fire scars. Fire Behavior Prediction System Fuel models 5, 8, 10, and 11. Predicted: 1 hr fuel 10% unshaded Predicted: 11 hr fuel 10%, 100 hr fuel 12%, 1000 hr fuel 11%.

A cool and moist air mass will settle over the fires today with frequent rain showers throughout the day. This will mark the beginning of a 2 to 3 day period of cool and wet weather across the area.

The module last day of work for the module is 9/4. Travel to Lewiston to catch NICC jet 9/5.

The modules will be demobing from there respected Base Camps Saturday morning, double lunched and traveling to LWS. Ready to load by 1300. Crews are to Manifested and Weigh prior to leaving Base Camp. The Puerto Rico Crew will not be extending. They will be flying out of Missoula commercially Saturday 9/5.
